

Elastic Network Security Analyst learning path

Perform full-spectrum network threat detection and hunting using Elastic

Step 1

**Linux
Fundamentals**

Step 2

**Network Protocol
Analysis**

Step 3

**Packet
Analysis**

Step 4

**IDS Log Analysis
with Suricata**

Step 5

**Network Metadata
Log Analysis with
Zeek**

Step 6

**Kibana Security
Analysts**

Step 7

**Threat Hunting
Capstone with
Network Telemetry**

**Elastic Training recommends completing the individual courses in the order outlined above.*
